

FOR PRESIDENT,
JAMES A. GARFIELD,
Of Ohio.

FOR VICE PRESIDENT,
CHESTER A. ARTHUR,
Of New York.

Davis has been elected Governor of Maine.

Garfield has been married 22 years. He will celebrate his Silver Wedding in the White House.

Justice Harlan, of the United States Supreme Court, is fat, tall and jolly, likes to tell stories and can kick a football further than most men can.

The Battle Mountain Messenger has been ensmelled, but is now issued semi-weekly instead of weekly. It is an excellent little sheet, and in very capable hands.

General Garfield is described as looking exceedingly well during these campaigning days. His open countenance, cheering laugh and hearty manner reveal a quiet soul.

A prominent Greenbacker of Indiana says that Porter, the Republican candidate for Governor, will get ten Greenback votes where Landers, the Democratic candidate, will receive but one. He predicts a Republican victory.

Dr. Tanner made a speech the other day in Ohio, in which he said that he was a member of the Greeley party against Grant, but that he was now for Garfield. Having made his speech he a watermelon in public.

When all has been said and done the broad fact remains," says the Saturday Review, "that within the last few years valting has advanced from a form of exercise to something like an art. Passing over minor details of style, the principal points of improvement seem to be a keener appreciation of time and a mode of motion more equable, more rhythmic, and hence more graceful. Both of these are in a great measure due to an alteration in the character of modern dance music."

Chief of Police Karcher this morning, says the Sacramento Bee of Tuesday, received a letter from Columbus, Ohio, asking that a full and accurate description of Tom Lawton, one of the Tullis murderers, be forwarded at once, as it was believed that he was in that vicinity. The letter was from a party who claimed to have been a resident of Sacramento at one time, and who said he was thoroughly familiar with all the circumstances of the murder and the escape of Lawton. The request was complied with.

The latest news from Maine leaves little doubt that Governor Davis will have a plurality over Plaisted. Governor Davis has made a net gain of 603 over last year, and now has a plurality of over 1,300. Allowing the remaining returns to come in to be similar to the vote of last year, Plaisted would have a plurality of 38. The Legislature of Maine stands: Senate—Republicans, 22; Fusion, 9. House—Republicans, 82; Fusion, 67. For Congress the delegation stands as at present, all the members being re-elected, and standing three Republicans to two Fusion.

Colonel Lee Crandall, Secretary of the National Greenback party, writes as follows to Hon. W. A. Wallace, Chairman of the Democratic Committee of Pennsylvania:

DEAR SIR:—In behalf of the National Greenback Labor Party, permit me to express my gratification at the unopposed and unanimous act of the Democracy of this city in celebrating the victory which our party has gained over the hard-money oligarchy in the State of Maine, and to say that it shall ever remain engraved upon our memories as one of the most gracious acts of the gallant but retiring Democratic party.

A Eureka dispatch of the 15th reads as follows:

The decision of Judge Byles was filed this evening in the Rickard-Albion suit. All the Albion locations are sustained and the big vein theory, decided in the Eureka-Richmond case by Judges Field, Sawyer and Hillyer, is approved. The injunction is dissolved, except as to a small strip commencing at a point at the most easterly corner of the Albion No. 1 location and extending thence at right angles to the course of the vein. This does not affect the Albion surface lines, but make a little different line on the dip. This decision is that the rights of a locator on a vein, if its dip is at right angles to its general course, is independent of surface lines. This is a substantial victory for the Albion Company.

OUR WASHINGTON LETTER.

WASHINGTON, Sept. 9, 1880.

The Democratic press complains that business men are urging their employees to vote the Republican ticket. Let us sincerely hope the charge is true. Business men can do no better than to use what influence they have with their employees for continued prosperity. It is folly to quibble as to the causes, we know prosperity is here, and that the measures adopted by the Republican party and executed by Secretary Sherman, have been the cause of its coming. Democrats claim that equal prosperity would have been attained had no such measures been adopted. But the fact remains that Republican legislation has been followed by wonderful

REVIVAL OF TRADE.

And is known by its fruit. Business has been checked and paralyzed whenever there has been a fear that Democratic measures would prevail, and adjournment of a Democratic Congress is always followed by an improvement of business. Business men regard the Democratic party as hostile to their interests, and they consider it their duty to make the fact known to their workmen, so that both may vote as well as work for the common interest. Sensible employees and workmen know that for twenty years Republican victory has meant prosperity for American labor, and there is better reason to expect that increased prosperity will follow another victory. The party has contributed to the advancement of national wealth in many ways. It has brought to this country millions of

INDUSTRIOUS WORKERS

From foreign lands, and has given them homes on our boundless public lands, and the products of these people here increase our exports every year. By its kindly protection it has made manufacture and mining reasonably profitable, and the building up of these industries, and the consequent centering of large numbers of people have created larger home markets for the products of the farm. When Democrats assail the Republican party, they should remember that every broad field, every smoking chimney, and every furnace bears witness to the wisdom of its policy. The beneficial effects of that policy, as I have said, are felt by every intelligent live man in this country, and I do not believe they will give confidence to a party which demands complete reversal of its National platform of the Republican policy. The first returns from

VERMONT

Are music to loyal ears. The majority is greater than any since 1872. Maine will speak next week, and there is no doubt but that she will give an old-time Republican majority. It looks like the beginning of a Democratic Waterloo. Governor Cornell of New York, who has large experience and is a sagacious observer in politics, expresses the opinion that the electoral vote of New York will be cast for Garfield and Arthur. He says "The manufacturers are especially active and zealous among their employees, believing that a continuance of Republican policy is essential to their continued prosperity." He is confident that if

INDIANA

is carried the Republicans will win every free State, leaving old slave States to the Democrats. He also says that the non-partisan vote which in 1876 was cast for Mr. Tilden because it wanted a change, will this year vote for General Garfield because it does not want a change. This vote in New York, will be at least 80,000. There are now 50,000 "Boys in Blue" organized in the State of New York. There are about 60,000 veterans of the war of the rebellion in the State. It would not be a bad idea when General Grant comes East to give him a chance to review the veterans of his campaigns.

LOGAN.

There was an immense audience in San Francisco Wednesday night to listen to Emory Storrs, Chicago's great orator. A dispatch of the 15th gives the annexed particulars:

The finest audience ever gathered within the walls of the Grand Opera House assembled there this evening to listen to an oration on campaign topics from a Republican standpoint by the Hon. Emory Storrs, of Chicago. The spacious auditorium was packed from orchestra to dome; the doorways, lobbies, stage and wings were crowded; the boxes and dress-circles were occupied by ladies in such numbers that the house presented the appearance of a successful opera night. P. B. Cornwall called the meeting to order. General Miller was called to the chair, and with a few remarks introduced Mr. Storrs, who kept the audience during the evening vibrating between bursts of applause and roars of mirth with his flights of eloquence and sallies of wit. The meeting was by far the most brilliant of the campaign.

Supposing that the Republicans have a majority in the next House of Representatives, the Philadelphia Press asks who will take the place of leader to succeed Mr. Garfield, and concludes that Minister Kasson, of Iowa, will be the man.

NEWS OF THE MORNING.

Nearly complete returns from Arkansas give Churchill, the Democratic candidate for Governor, 52,000 majority.

James G. Fair has arrived in New York from a seven months' tour around the world. He visited Japan, China, India, Egypt, Greece, Italy, Berlin, Paris, Vienna, London and Edinburgh. His health has been fully restored. After a few days' rest he leaves for Nevada.

A committee appointed from Tammany Hall to make arrangements for a grand meeting to ratify the union of the Democracy of New York, on Thursday evening next, waited on General Hancock with a request that he would review the procession. The General informed them he would carefully consider the matter and communicate his decision to the Chairman.

Among the dispatches received by Plaisted is the following: Governor's Island, N. Y., Sept. 14.—To Hon. Harris M. Plaisted, Bangor, Me.: Accept my congratulations on the glorious result of your campaign. It will inspire our friends with confidence, and strengthen them in the preliminary battles which remain to be fought elsewhere and which need all our forces.

The hop crop has been a profitable one this season. A Sonoma farmer realized \$6,250 from a field of 20 acres, the yield being about 25,000 pounds.

The road leading from Truckee to Lake Tahoe follows the banks of the Truckee river the whole distance and forms one of the loveliest drives in the mountains.

Ormsby County Tax Roll.

Owing to decrease in values of property, a falling off in population and other causes, the total assessed value of property in Ormsby county this year will show a falling off of at least two hundred thousand dollars. The Carson Times says:

Last year the total assessed value was as follows: Real estate, \$1,533,291; improvements, \$15,105; personal property, \$967,870. Total, \$2,486,275. The assessed value of bullion in 1879 was \$279,880 53; tax, \$7,694 71. This year its assessed value will be about \$100,000; tax, \$2,750. But three of the river mills are in operation, the Mexican, Morgan and Brunswick, which are running on tailings. The Mexican, it is thought, cannot be assessed for more than ten per cent. of its gross yield, as expenses for working will probably be ninety per cent. The expenses of working at the Morgan and Brunswick are about one-half of gross yield. Last year 1,026 poll taxes were issued, aggregating \$4,104; this year not more than 500 will be issued, owing, principally, to a decrease in the laborers taxable in the county. The rate for State and county is same as last year, \$2 75 per \$100; city tax, 50 cents. The bullion tax is turned into the State Treasury by the Assessor, independent of other tax collections. The above comprises about all the information available at present; when the Assessor's statistical report is completed full details can be given.

THE ENGLISH HARVEST.

[N. Y. Herald.]

This is a subject of great interest in the United States, since it is the main element in estimating the foreign markets for our surplus. The American supply this year is truly remarkable, our crop of wheat exceeding even the abundant crop of 1879 by something like fifty millions of bushels. As England is our chief foreign customer the state of her harvest determines the value of our wheat product.

The English crop this year, though considerably better than that of 1879, is somewhat below an average. The early promise was excellent, but heavy depressing rains in the month of July impaired the filling out of the kernel, so that, in spite of the excellent harvest weather in the latter part of the season, the crop has fallen short both in quality and abundance. Most of the other English crops have been good, particularly oats and barley. Of the root crops turnips are far above the average and the potato crop is magnificent. An abundant supply of other kinds of food is an alleviation of the wheat crop, since the poorer classes will consume less bread and more roots.

The English agriculturists have barely escaped ruin by the improvement of their wheat crop over that of the last two or three years. The tenant farmers have their fixed rent to pay whether the land yields anything or not. A succession of bad harvests has brought them behind, and the improvement this year has not been sufficient to relieve them from embarrassment. It barely keeps them out of the bankruptcy with which they were threatened if the harvest of 1880 had been no better than that of 1879.

English agriculture is subject to hard conditions. In most other countries a deficient harvest raises prices, and there is a partial compensation for the shortness of the crop in the increased value per bushel. But the English farmers are deprived of this advantage in years when the American crop is abundant. The price of wheat in England is regulated by the price in America, and it so happens this year that we shall be able to sell wheat in the English market at rates so low that the tenant farmers cannot materially reduce their accumulated debts out of the improved yield of their land. The inundation of cheap American grain tends to discourage the production of wheat in Great Britain. There is no safety for English agriculturists but in devoting a larger acreage to other crops and depending more and more on America for their supply of breadstuffs. Mr. Edward Atkinson, of Boston, has taught them a useful lesson (if they would heed it) by showing how the value of Massachusetts farms has increased since grain growing has been dropped and the land given to other uses.

Reported Strike in Alta.

The Virginia Chronicle of Thursday evening has the following:

It is reported on the street that there is a marked improvement on the 2050 of the Alta and Benton, and the rumor has caused a sharp advance in the stock, as will be seen by the quotations. From the joint winze on the line a drift has been run south in Alta ground and another north into Benton, but the best indications are said to be in the south drift, which has cut into ore in the face. The drift has been sent in to the west at three or four points to cut across the vein, and it is reported that good results have been obtained and that a west crosscut will be started next week. It is probable that ore will be found, as the ledge is the same in which good material was developed on the levels above.

"The Same Old Regiment."

[Wade Hampton to the Democracy of Virginia, July 26th, 1880.]

"Gov. Vance will confirm my words that we can carry the South, if you will only carry Virginia. He has come like me to appeal to you not to forsake us in the hour of need. Consider what Lee and Jackson would do were they alive. These are the same principles for which they fought for four years. Remember the men who poured forth their life blood on Virginia's soil, and do not abandon them now. Remember that upon your vote depends the success of the Democratic ticket."

The great planet Jupiter is attracting a great deal of the attention of the people who gaze at the phenomena of the skies. He is now playing a star engagement and is preceding the harvest moon. Rising early he is watched until late, not only by lovers who stand on rustic bridges, but also by all other sorts of star-gazers, who look at them through powerful telescopes and even ordinary opera glasses. He is bright, brilliant and beautiful. His colors are gorgeous, and his satellites cling near him like offcenseers round a candidate. There are people who ascribe to him the heat waves and the hurricanes, the meteors and the heavy showers. He seems to be King of September, and like a good ruler, he turns his bright spot toward us, even when our sky is not clear.

The Grass Valley (Cal.) Union of Tuesday says: Among the pieces of rich, gold-bearing quartz taken out of the Rocky Bar mine a few days ago, was one that not only had gold running all through it, but on one side the gold looked as if it had been put there by pressure. This piece weighed 17 1/2 ounces troy, or nearly 1 1/4 pounds, which contains 49 ounces of gold, amounting to the value of \$330. This is the richest of all the rich pieces of rock taken from the Rocky Bar in the late "strike."

REPUBLICAN

COUNTY PLATFORM.

Resolved, That we most heartily endorse the principles as enunciated by the National and State Republican Platforms.

Resolved, That we recognize in James A. Garfield and Chester A. Arthur, the Republican nominees for President and Vice President, prominent worth and ability. Their past record, patriotism and services give assurance of their ability for the posts to which they have been nominated, and that they should and will have our earnest and united support.

Resolved, That in R. M. Taggart the Republican party has given the people of Nevada an able and industrious representative, and in Wm. H. Boyer an honest and fearless judge, and we will endeavor by united action to secure their election.

Resolved, That the Republican party ever has encouraged and endorsed free and intelligent labor, and ever will endeavor to protect the unrestricted immigration of Chinese to our shores and to promote the happiness and well-being of the laboring classes of our nation, and fully recognize the self-evident fact that our national growth, grandeur and prosperity are the results of free labor.

Resolved, That the principles of our government can only be upheld and perpetuated by a full, free and fair ballot, and that to secure and protect the right of suffrage to every citizen is our duty to disinterestedness and common sense, and that every lawful measure should be invoked to secure this right to every citizen.

Resolved, That in view of the fact that the Republican party has ever been true to its trusts in the past, our national prosperity and welfare demand a continuation of its rules.

Resolved, That it is the duty of every Republican to give his support only to men whom we are assured will guard and protect the interests of the people, and advocate and promote the educational, industrial, and manufacturing agricultural, mining and other industrial pursuits of our people.

Resolved, That the Republicans of Washoe county favor the election of United States Senator, and that our representatives and Senators be instructed to vote as a unified and harmonious body, and to secure the election of a man whose home is in Nevada.

Resolved, That we pledge the Republican party to use every effort to reduce the expenses of our State government and that we are opposed to the repeal of the County Salary Bill.

Resolved, That we are opposed to the so-called Druggists' License Law, and would recommend its repeal or the reduction of the license to five of five per cent.

Resolved, That the Republican party of Washoe county extends a cordial invitation to candidates to come here and build quarries, mill, pen mines, run irrigating ditches and lay railroads, and we will receive equal and exact justice and fair dealings to all.

Club Entertainment.

All friends of the Athletic Club are cordially invited to be present at Kimball's Hibernian evening, to witness an exhibition of the work being done by the Club. It is not to be expected that in less than three months, the boys have all become professionals but if you ask them, they will tell you that they enjoy it, feel better for it, grow stronger by it, and save money by it. There are few places where boys can spend a pleasant and profitable evening in Reno, and the Athletic Club hall is one of them. They will have a good time. The ladies are invited. The exercises will commence promptly at 9 o'clock.

Hay for \$8.

We are assured by Mr. John Boynton that there is plenty of loose hay on the Truckee Meadows to be had for \$8 per ton. He will sell all he has for that price, and knows that many of his neighbors will do the same. We publish this for the information of those who have stock to feed, and to remove the impression created by the publication that loose hay in slack could not be had for less than \$10 or \$12 per ton.

The Northern Road.

It is understood that the money for the building of the railroad North from Reno, has been subscribed in New York. Capt. Bragg, one of the Directors, believes that ground will be broken inside of three weeks. A. J. Hatch says he would rather throw up the first shovel of dirt than be United States Senator.

District Court.

The Hoy-Hoy divorce case was concluded yesterday and submitted. Parker and Sullivan, the two boy burglars, were sentenced for three and two months respectively.

Rebuilding.

Chinatown, or rather that portion of it lately destroyed by fire, is being rapidly rebuilt, and the Celestials will soon be comfortably housed again.

Our farmers express themselves as profited by reading Prof. Lemmon's article on the grasshopper scourge, copied in this paper a few days ago, and many of them will try the suggestions made. A concerted action certainly could not fail of being productive of much good. The article is illustrated in this week's Weekly Journal—issued to-morrow.

A subscriber desires us to give the total vote received by the candidates for the office of County Recorder two years ago. It was as follows: J. B. Williams, (Dem.) 690; R. H. Wright, (Rep.) 610; C. S. Martin, (Work.) 109.

Quite a number have expressed a determination to take advantage of the moonlight and go to Haffaker's to-night to attend the dance for the benefit of the school organ fund. Those dances are very popular.

There are 520 registered voters.

The State Papers.

The fall times are not without effect upon the newspapers of the State, and although the impression has been that there would be no startling changes until after the election, some of the papers have already taken time by the forelock and are sailing close to the wind. The Elko Weekly Post has been reduced in size, and the Eureka Leader resumed with one column less on each page. After the election we look for the ensmallment of several of the papers, and it is not unlikely that one or two may suspend publication. There is hardly a newspaper in the State that has paid interest on the money invested, for two years past. The cost of publishing a newspaper is a great deal more in Nevada than in any other State in the Union. The rate of composition is nearly double that paid in the East. The newspapers have always been ahead of the times. Here for instance, in Reno, are published two daily papers, and each one issues a weekly edition. Almost anywhere else in the country a town like this has all it can do to sustain a single weekly. This is the rule all over the State. Considering the field they have to work in the papers of this State are models of energy and perseverance.

Reward Offered.

Governor Kinkaid offers a reward of \$250 for the arrest and delivery to the State Prison of the escaped prisoners, John B. McTague and Albert Whitfield. One half the reward will be paid for either. Following is a description:

McTague—Age, 24 years; complexion, light; eyes, blue; hair, light; weight, 142 pounds; height, 5 feet 5 1/2 inches. Has two small scars on right side of neck; vaccine mark on left arm; birth-spot, small red spot on right forearm; bridge of nose slightly flattened; small red mole in front of neck; both big toes, nails ingrown; academic education.

Whitfield—Age, 21 years; complexion, fair; eyes, blue; hair, brown; weight, 145 pounds; height, 5 feet 5 1/2 inches; vaccine mark on right arm; scar on right knee size of dime; scar one-half inch long between thumb and first finger of right hand; scar two inches long on right side of neck; mole on right breast; two moles on right shoulder blade, face very long and slim.

Equalization.

On Monday next the Commissioners will meet as a Board of Equalization, the Assessor having completed his duties and handed his books over to the County Fathers. The Board will hear all complaints from property holders as to their assessment, and will, if necessary, continue their labors until Oct. 20th. If you have anything to say about this, say it before the Board on Monday.

Nearing the End.

The New Golden Eagle hotel is rapidly approaching completion. Work is being pushed forward with all possible speed in order to have the house ready for guests by Fair week. This new hotel is a credit to the town, and we hope mine host Barnes will be as well treated by the traveling public as he deserves.

The Republican County Central Committee will hold a meeting to-morrow afternoon at 2 o'clock. The object is to assess the candidates for county offices for campaign purposes, and to map out the work of the campaign.

Johnny Bartholomew, the hero of the flaming American Flat tunnel, and the first Superintendent of the Lake Tahoe Narrow Gauge Railroad, died a few days since in Oregon.

Those two convicts who escaped from the guard, near Carson, on Monday, have not been recaptured, and those in pursuit have given up the chase as hopeless.

The Carsonites are already speculating upon the good time coming. The Tribune says: Socially this will be the gayest of gay winters.

The Carson Tribune says it is reported that Messrs. Yager and Willis have sold their tailings and mill at Franktown for a good round sum.

Emory Sorrie, the great Chicago orator, will arrive on this morning's lighting. He will make a speech to the Comstockers to-night.

The California State Fair meets in Sacramento on Monday next, and the Nevada Fair at Reno on the Monday following.

U. S. Marshal Ash, Supt. Foreman and Geo. Gillson, were passengers for the Bay on last evening's lightning.

The wind was abroad in the land yesterday, bunting up all the trash and dry goods boxes lying around loose.

The mountain fire continues to burn brightly. Yesterday's wind fanned it considerably.

The State Fair Trustees meet at 11 to-morrow to make appointments of employees.

Isaac Barnett went below last night after his Fair and Fall stock.

The first issue of the Greenville Bulletin will appear on the 22d.

Surprise parties seem to be a popular "industry" just now.

Book this: A child can buy goods at Sol Levy's as cheap as a grown person of greatest experience, because he has only one price and that is the very lowest.

Wm. Goeggel is classed amongst the most skillful watchmakers on the Pacific Coast.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.
